ENGLAND AND FRANCE TALKING OVER DEBT

LONDON, Dec. 7.—Premier Ramsay MacDonald left for Paris today to confer with Premier Herriot of France in connection with the war debt payment situation.

It was also stated he would go into the question of France repaying Britain some of the money borrowed years ago.

Settlement of the \$95,000,000 payment may be made on December 15, but no further payments will be made until new agreements are made, stated Ramsay MacDonald.

BLAIRMORE BROWNIES MAKING PROGRESS

The Blairmore Brownies, a junior organization of the Girl Guide movement, since their formation in Blairmore last April, have made splendid progress in their work, play and studies.

Under the direction and leadership of Brown Owl, Mrs. L. L. Morgan, and her able assistant Tawny Owl, Miss Sneed, all the Brownies have passed their tendered tests and quite a number are well on in their first class work.

The troop when dressed in their regulation brown uniforms form a very pleasing spectacle, especially when singing their grand salute or giving their grand howl, forming a circle with their toast stool in the centre and with Brown Owl and Tawny Owl on either side of it, clapping hands, they circle their leaders singing the grand salute. At the end of the song they squat and give the grand howl and at the same time give the Brownies' hand salute.

They have had many picnics during the summer, taken long hikes, and as a Brownie must learn to swim it naturally follows they have visited Lee Lake many times.

Among their many duties is the learning of hygiene, bed making, the art of knitting, (a few have knitted an honest-to-goodness real scarf) elementary first aid, how to tie certain prescribed knots, the composition of the Union Jack, signalling and how to skip.

Miss Church, of Edmonton, commissioner for the province, inspected the troop about three weeks ago and was highly delighted with their progress.

It is reported that troops of Brownies will be formed in Bellevue and Coleman shortly. This is good news for the Blairmore troop, as they hope to be able to entertain and compete against them in the very near future.

After the Christmas holidays are over, the Brownies are going to put on a concert in Blairmore, and they are going to do it all alone, just to show their parents and friends what they have learned and can accomplish in the organization and under the leadership of their present Brown Owl and Tawny Owl.

"BEHIND THE MASK," REAL THRILLER, AT ORPHEUM

Who is Mr. X? This remains a mystery to the members of the dangerous dope ring of which he is a powerful but phantom-like leader, and to the Secret Service who are doggedly on his trail. To learn his identity means death! The tireless search of Agent Hart (Jack Holt) leads him to the private hospital run by Dr. Stelner, member of the gang. He discovers that under the guise of legitimate medical practice, Stelner brutally kills those who are considered obnoxious to Mr. X. As a result of a succession of circumstances Julie Arnold (Constance Cummings) and Hart find themselves in this hospital. Hart is strapped to the operating table and is about to receive the fatal cut when

Total goals to count in both series.

BOARIN' GAME ADICTS TO GET STARTED MONDAY

With the drop in temperature this week, the ice man at the local arena has been able to get the much-needed sheets of ice in shape, and the draw committee will be posting draws over the week end for the start of the curling season on Monday.

Reorganization of the Blairmore Curling Club has been effected, with a membership of around fifty, affording sport for a dozen or so rinks to get under way next week. The fee this year has been set at \$3.00 and, with a special invitation extended to new curlers, anyone wishing to curl this winter are asked to get in touch with Secretary Macalister or any of the skips.

Following is a list of skips: H. Carmichael, Mel. Rhynas, L. L. Morgan, W. L. Evans, W. H. Chappell, "Joe" Fumagalli, Dr. Rose, C. Millar, P. Salt, J. B. Wilson, J. Jenkins.

"DOCTOR X" AIMS TO CON- FOUND THE AUDIENCE

"Confound the audience." That is the spirit in which Director Michael Curtiz has made First National's all technician mystery melodrama, "Doctor X," which comes to the Orpheum theatre for Monday, Tuesday and Wednesday of next week.

It is a kindly wish, not an expression of disparagement. "Unless the audience is confounded," Curtiz declares, "we lose our object."

"Doctor X" was made with the ambition to out-mystery all previous screen mysteries. The cast includes Lee Tracy, Lionel Atwill, Fay Wray, John Wray, George Rosener, Preston Foster and Arthur Edmund Carewe.

BLAIRMORE PUBLIC LIBRARY Books being placed on the shelves this week are:

"Barrie Marvell," by Charles Vines; "The Blade of Picardy," by Fred McLaughlin; "Eager Vines," by Bonnie Busch; "The Turning of Grigsby," by Irving Batcher; "The Flametock Mystery," by J. S. Fletcher; "The Betrayal," by E. Phillips Oppenheim; "Man as Psychology Sees Him," by Edward S. Robinson.

The library hours are Tuesdays and Thursdays from 7 to 9 p.m., and Saturdays from 7 to 10 p.m. The fee is \$1.00 per year for residents and \$2.00 per year for non-residents.

Now--All Together.

Municipal and school board elections are over for another year throughout Canada's western provinces. Reports indicate that generally speaking the elections this year were contested with a vigor surpassing that which usually characterizes such contests. This, no doubt, is but another result of the difficult and critical times through which the world is passing, the inevitable outcome of which is discontent, dissatisfaction with whatever is done, no matter what its nature may be, or who may be responsible for the doing of it. Another factor accounting for the keenness of many contests was the entry on a grand scale of the Federal Affairs into the realm of municipal affairs, thus introducing a new element, and in some cases a new bitterness, into municipal and school board elections.

It is no doubt true that at no time can men and women, clothed with responsibility by their fellow citizens to direct public policies and manage public affairs, please all classes. No matter what they may do, or may leave undone, certain people will be dissatisfied. This, however, is especially true at a time like the present when all governing bodies are confronted with the two-fold task of exercising the strictest economy on the one hand, and of being faced with the necessity of making extraordinary expenditures on the other hand. Both these things must be done, the first because of falling revenues resulting from the inability of many people to pay taxes, and the second because prevailing conditions make it obligatory to provide work or relief for countless numbers of people. The result is a demand for more and more so-called "free" services on the part of governments, for people who have not the means to obtain the services for themselves, at a time when governments cannot possibly get the money to pay for the "free" services.

Dissatisfaction and discontent, ending in unreasonable demands on the part of many, is the inevitable result. Those things which many people are demanding, if granted, mean the imposition of still heavier burdens on others who are making a valiant struggle to keep their own heads above water and not become charges on the community. Those whom the citizenry made responsible for administration of public policies and affairs thus found themselves between two fires, and, with their hands tied financially, making it impossible for them to do many of the things they undoubtedly would have been glad to do were it only possible.

Some experienced and conscientious public servants have, as a result of this general dissatisfaction, been defeated, their places on public bodies being taken by others, none, however, have captured the popular fancy and support as a result of more or less sweeping promises which they will soon discover they, too, with all the best intention in the world, will be unable to fulfill.

Service on municipal councils, school boards, and other public bodies is, at best and under the most favorable circumstances, a more or less thankless task, while under present prevailing adverse conditions it is even more so. Involving, as it does, not only abuse, misrepresentation of motives and acts, and loss of whatever popularity a person may have possessed. Such service also involves a small sacrifice on the part of the person accepting public office. In these days it requires every moment of one's time and energies to keep their own personal business matters in solvent shape, neglect of them means disaster.

But service on public bodies is a public duty. It is a duty that must be discharged by some one, and those who are willing to make the sacrifice are deserving of the thanks and cordial goodwill of their fellow citizens, regardless of the fact that their every act may not meet with approval.

Therefore, now that the smoke of our municipal and school board battles has floated away, now that the decisions of the majority have been rendered, it behooves all citizens of good will, and loyal to the democratic institutions of this country, to get behind their representatives, whoever they may be, and, irrespective of the fact whether they were their personal choice or not, give them a helping hand. Let carping criticism now cease. Let all personalities be forgotten. Rather, let one and all stand unitedly in support of their elected representatives and work harmoniously together with one single purpose of doing the best possible under existing circumstances, helping each other, and thereby helping all.

And in so doing greater consideration may well be given to this important fact which too many people are rather inclined to forget in these troublous days to forget, namely, that more can be learned from the experiences of the past than from all the text books of theories or the idealistic visions of inexperienced and untried visionaries. What is good in the past we should retain, while that which, through experience, we have learned to be weak and faulty should be remedied or discarded, being substituted by what that same experience has shown to be needed, rather than to invoke some purely theoretical idea which, when put to the test of practical operation, is more likely than not to land us in a deeper morass than the one from which we are striving to extricate ourselves.

Trap For Smugglers

"Wall Of Invisible Rays" On Germany's Western Frontier

An invisible wall which nobody can penetrate unnoticed, soon to be "erected" at certain points of Germany's western frontier as the latest device against smugglers. It is a "wall of invisible rays" which cannot be seen or felt; but whoever penetrates it will set off an alarm in the Customs office. Then an indicator promptly announces the spot where the intruder has crossed the frontier. A special device informs the officers of "blind alarms" by hares, dogs or deer.

Parisian Detective Sues Taxi Company For Injury To His Nose

Detectives must have two good noses—one for crime and another on the face. That is why a magistrate in Paris has awarded \$1,000 damages to a sleuth attached to the police squad for the suppression of gambling. The detective had sued a taxi company because his nose had been injured in a taxi accident and he could no longer carry on his work at race tracks because "he would immediately be recognized on account of his injured nose."

Woman Is Honored By French Legion

Old Tradition Has Been Shattered For Second Time

An old tradition which kept French women from rising in grade in the Legion of Honor has been shattered by the award of the rank of Commander of the Legion to a woman, the second time in history.

Mme. Philippine de Vilmorin, millionaire business woman and one of the world's greatest dealers in seeds and grains, has been promoted from Officer to Commander, joining in that rank Countess de Noailles, poetess, the only other woman Commander in the Legion's history.

The promotion came in the distribution of 600 ribbons and rosettes of the Legion of Honor to reward services rendered towards the success of the Colonial Exposition. Mme. de Vilmorin had created the floral decoration of the exposition grounds.

Widowed during the war, Mme. de Vilmorin left the front, where she had won citations as a war nurse, and took charge of the 200-year-old grain firm.

She travelled through Africa, India, China, Java, Egypt, Australia and the Orient, to select and improve the seeds of tobacco, rice, coffee, peanuts, and other colonial crops. She operates agronomic laboratories and largely was responsible for saving the French cut-flower industry from ruinous Dutch and Italian competition.

Reproduction Of Old Temple

Took Centuries To Build But Duplicate Took Sixty Days

The Chicago World's Fair breaks ground for the great Maya temple that is to be a dominating feature. It reproduces the temple at Uxmal, Yucatan, built more than 1,000 years ago by the most enlightened architects of North America. The original was generations in building, the duplicate goes up in 60 days. With electric cutting tools the grotesque head of a Mayan god can be turned out in a few hours; but the original Maya, who did not even know how to harden copper used a lifetime in bringing a face or a column into form. This temple alone will serve all the ends of the world's fair—it will be a palm of a world's fair—Christian Science Monitor.

An excellent protection against worms can be got in Miller's Worm Powders. They render the stomach and intestines uncleanable. They heal the surfaces that have been inflamed by the attacks of the parasites and serve to restore the strength of the child that has been undermined by the draughts that the worms have made upon it, and their operation is altogether health-giving.

Grain Storage Rates

Charge For Grain Storage Has Now Been Reduced

The rate of charge for grain storage, elevator and other services at country and terminal elevators, has been fixed by the government at one-fifth of a cent per bushel per day, a decrease from the rate of one-thirtieth of a cent at present.

The change is made by virtue of the recent amendment to the Canada Grain Act, which places the power to take such action in the hands of the Board of Grain Commissioners. The amendment passed the House during the recently adjourned session, after a brief debate. It was sponsored by Hon. H. H. Stevens, Minister of Trade and Commerce.

Shanghai Has German Paper

City Now Boasts Wide Variety In Daily Newspapers

Into the label of Shanghai's already complex newspaper world still ready foreign language daily has made its debut. It is the German language Deutsche Shanghai Zeitung. Perhaps no other city in the world boasts of so many different kinds of daily papers.

Published in the English language there is the old established English journal, the North China Daily News, so-called because at its founding most foreigners lived in Canton, to which Shanghai was then North China, although it is far from that geographically speaking. Two Canadian dailies, the China Press in the morning and the Shanghai Evening Post and Mercury, an afternoon paper, vie with the third, the Shanghai Times, which has an English edition, although it is not of that nationality as to capital.

Bidding For Foreign Markets

Germany Plans To Send Out Floating Industrial "Fair"

In an endeavour to regain some of the foreign markets Germany lost as a result of the world war, an association of German manufacturers of Hagen, Westphalia, plan to send out a floating industrial "fair."

It will visit more than 70 foreign ports of the world, leaving Hamburg or Bremen shortly after the first of the year and remaining away 18 months.

"It will sail first to South America ports, later visiting British East India, China and Japan," the consul's report said.

The "Floating Fair" has been so organized that even small firms may take part in this piece of practical trade promotion. It will offer for sale and will exhibit a great range of German industrial products, especially hardware and tools.

No Place For Candy Shop

New Orleans Woman Would Open Store In Altkavik

In New Orleans, La., a certain woman has cherished the idea of Canada's far north. She also seeks knowledge of the Dominion's currency.

The woman, whose name was not revealed, wrote a tourist agency at Calgary for the information as she apparently wanted to open a store in Altkavik, which rests in Canada's bleak sub-Arctic.

The agency, however, told her there were not railways to the shore coast of the Arctic ocean and that it would be doubtful if the candy and confectionery would be very profitable in that district. They also told her Canadian money was in dollars and cents not pounds and shillings as she believed.

Legend Of Bruce

Famous Bruce's Stone Is Presented To Scottish Nation

The Earl of Mar has presented to the Scottish nation the Bruce's stone. Everybody has heard the legend of Bruce and the spider. Less familiar, though, is the story of the stratagem to which Bruce resorted, as he did on so many other occasions with equal success, when he was a fugitive in the Galloway Highlands. His little band of followers gathered all the stones, wild and tame, all the goats, all the four-footed creatures upon which they could lay hands. The noise of this large body and the waving of the goats' horns made the English apprehensive, that there must be a large force with Bruce. Accordingly they remained in their camp, and at daybreak Bruce attacked them with such fury that they were utterly routed.

Moss Raploch, where the stone is set up, and under which Bruce rested after he had put the enemy to flight, was recently sold by the Earl of Mar to the Galloway Fife Company, the earl reserved from the sale the stone itself, together with a means of access from the main road.

"Nation-Wide Fame." — There is scarcely a corner of this great Dominion where the merits of Dr. Thomas' Electric Oil have not been tried and proved. Hoarders Must Spend

Only Way To Start Business On The Up-Grade

The Canadian Manufacturers' Association has issued a circular for the benefit of the public generally and of trade in particular, pointing out the necessity, if good times are to return, for the free spending of money. The only thing that keeps back the recovery of trade is the lack of money in circulation. Consequently all hoarding or restriction on spending keeps back the recovery on which so much depends.

"The public interest in present conditions does not point to private economy; to spend less money than we should like to do is not patriotic; it is one sentiment which the circular quotes from an English authority, which is equally applicable on this side of the ocean.

"In the period of the war it was a patriotic duty for private citizens to cut their expenditures on the purchase of consumable goods and services to the limit of their power. When a man now economizes in consumption, and lets the fruit of his economy pile up in bank balances, the released real resources do not find a new home waiting for them." Revival of business will only follow free spending.

Many Methods Used

Almost every known method of survey has been made use of in the work of surveying the international boundary between Canada and the United States. In its length of 5,600 miles, the boundary passes through country greatly varying in nature—through areas of the sea, through the great lakes, through rivers, lakes and forests and over plains, snowfields, glaciers and mountains.

A Crowning Achievement

Herman Trelle's Prize Wheat Work Result of Seven Years Work

"Never have I been more confident of winning the championship," was Herman Trelle's comment when notified that he had won the world's wheat championship at Chicago. "I considered it won when I sent the sample in, because it represents seven years of selection and increasing of Reward wheat, and I consider it to be my crowning achievement. It is the first time I have ever shown this outstanding strain."

"This particular wheat was the largest sample of pump and uniform kernels combined with wonderful color, making it the finest wheat ever produced on our farm. This I consider to be remarkable and it proves the wonderful quality of this new strain of Reward wheat because this large and pump type was produced under very dry conditions. It suggests that it is drought resistant, which only further growing will prove."

"I predict that this type of wheat will provide the backbone of Canada's future export business because of its higher quality."

Only four times have United States farmers won the coveted award, and of the 18 times Canadians have carried the crown to the Dominion, three farmers have won it 12 times, records show. King of them all, however, is still Seager Wheeler, whose grain from Rosthern district in the world wheat plot of Saskatchewan, has earned the title five times.

BRITAIN MAY PLACE BAN ON U. S. IMPORTS

London.—The new British note to the United States on war debts contains a carefully worded, but none the less significant, warning that if the United States insists upon payment of the December 15 instalment the United Kingdom will be forced to take measures restricting imports of American goods.

It is emphasized in high government circles that while in the new note the British argument is fully stated and supported by facts and figures, the greatest care has been taken to put it into unprovocative form. But the note deals in no uncertain terms with the relative experiences of Britain and the United States so far as war debts are concerned.

Special attention is paid to the United States declaration that suspension of payments at this time would merely thrust the burden on the United States taxpayer. The brief and uncolored recital of the British taxpayers' efforts will probably come as a surprise to the American public which, it is felt, has been inclined to believe that if the war debts were cancelled the British taxpayer would emerge on an even keel, if not actually in the red.

The reference to restriction of imports from the United States points out that consequent on the United States tariff the United Kingdom's power to send goods to America has diminished, and the total trade of the two countries has been seriously reduced.

Resumption of the war debt payments would necessitate the United Kingdom taking measures to restrict imports of United States goods, especially of farm products, the note declares. And it emphasizes that, as the United Kingdom is America's best customer, the results "could not fail to be unpleasant."

The interests of both the United States and Great Britain, the note stresses, lie in co-operation for a revival of world trade. Insistence upon the war debt payments would further disrupt the world's economic machinery and add to the burden of both countries.

Mine Gas Kills Five

Seventeen Others Escaped to Surface When Explosion Occurred

River Hebert, N.S.—After damp, dread scourge of the mining men, claimed the lives of five men on the lower level of Maple Leaf No. 4 colliery, two miles from this town.

Seventeen others who were working in the mine when the gas exploded escaped uninjured to the surface.

The five bodies were recovered by a rescue crew organized after the explosion. They bore no marks of injury, and mine officials said they believed the men had been overcome by "after damp."

Honor Calgary Man

Atlantic City, N.J.—Dr. W. Herbert McGuffin, of Calgary, Alta., was named president-elect of the Radiological Society of America at the closing business session of its 18th annual meeting here. Dr. McGuffin will take office at the close of the 1933 convention which will be held in Chicago.

Prince Has Wireless in Car

London.—The Prince of Wales has had a wireless set built into one of his cars so that he will be able to listen to broadcast music as he travels. The set is not a portable, but is built into the car in a box concealed under the foot-rests for passengers in the rear seats. The aerial is hidden in the roof.

Bank Manager Recovering

London.—Sir Frederick Williams-Taylor, vice-president and director of the Bank of Montreal, who has been suffering from accidental poisoning, hopes to be sufficiently recovered shortly and will sail with Lady Williams-Taylor for Nassau, Bahamas, where they will spend the winter.

Alberta Farmers Institute Boycott

Huxley, Alta.—Three hundred farmers of the Huxley district have had declared a boycott on sherry and tax sales and pledged themselves to refrain from delivering grain to market unless higher prices than at present prevailing were paid.

Canada Big Winner

Dominion Captures Eight Titles at Chicago Grain Show

Chicago.—As the awards in the international livestock exposition and the hay and grain show began to pile up, it was found that the Dominion has annexed eight crowns out of a possible 15, and scored heavily in all classes entered.

Vernon, British Columbia, turned in the biggest upset of the show when M. S. Middleton, captured the crown for the best sample of rye in the show, forcing the favorite, Albert Robbins, of Laura, Sask., to second place.

In the durum wheat competitions, George Avery, of Kelso, Sask., scheduled to take the crown, was forced to second place by the showing of T. E. Smith's samples which later took the reserve championships to Herman Treble's winning sample of hard red spring wheat.

Alberta led in the capturing of the coveted crown with Herman Treble secured the most important honor in the show—the grain championship—for the fourth time, while three other Albertans scored, Fred Hann, of Goodfame, taking the oats crown, Fred Ohman taking the crown for alfalfa seed, and which was the best of both divisions and Eric Anderson, of Wembley, who took the Timothy crown.

From Saskatchewan, George Avery, of Kelso, won the flax honors and has taken two seconds to date in fighting the widespread childhood disease of rickets was announced by the United States Bureau.

Salmon oil contains twice as much vitamin D, the vitamin necessary to prevent and cure rickets, as does cod liver oil, until now the best known anti-rickets medicine.

The experiments were carried out with material supplied from Vancouver by H. R. Beard, in charge of research work for the Canadian Fishing Company, Limited.

Benefit to Children

Washington.—A new aid to health of children, discovery that salmon oil is twice as potent as cod liver oil in fighting the widespread childhood disease of rickets was announced by the United States Bureau.

Salmon oil contains twice as much vitamin D, the vitamin necessary to prevent and cure rickets, as does cod liver oil, until now the best known anti-rickets medicine.

The experiments were carried out with material supplied from Vancouver by H. R. Beard, in charge of research work for the Canadian Fishing Company, Limited.

Worth the Money

Russian Citizens Must Pay Stiff Price to Leave Country

Moscow.—Russian citizens are to be allowed to leave the country if they can pay the stiff price in foreign currency.

The government tourist agency announces it will accept orders for visas from individuals who desire to leave Russia for permanent residence abroad. The cost, to be paid in foreign currency, is 500 rubles for workers and 1,000 rubles for all other classes. The ruble is nominally worth 50 cents in Canadian funds.

The foreigner will get his outgoing visa for the same charge assessed by his country against a Soviet passport.

Accidental Shooting

Grand Falls, N.B.—Thinking he was aiming at a bear, Rev. E. Parkinson, rector of St. Angus church at Salmon Falls, N.B., fired, Donald McDonald, 20, Anfield, N.B., fell fatally wounded. The bullet passed through his body and stunned his younger brother, Neil, whose head was grazed.

Had New Fraud Scheme

Sault Ste. Marie—Relief officials checking up relief lists here discovered a Russian living in the east end had secured relief for five months for a family of five children living in Russia. He will be prosecuted.

Captured Oats Title

Fred Hann Had Three Years' Experience With Herman Treble

Beaver Lodge, Alta.—Fred Hann, farmer of the Goodfame district, 25 miles west of Beaver Lodge, who captured the oats championship at the Chicago grain exposition, had three years' experience under the wing of Herman Treble, of Wembley, Alta., wheat king of the Chicago exhibition and noted agriculturist.

Hann lives on a homestead on Steep Creek. He is a Dane from the German province of Holstein and spent three years as a prisoner of war in France when captured by the French during a raid. He came to this district five years ago after spending three years in the employ of Treble.

The sample of oats with which he captured the Chicago crown came from a ten-acre field which produced 100 bushels to the acre and had a stand of 5 1-2 feet. The average weight was 57 pounds to the bushel.

NEW RULE TO BAR WINNERS AT CHICAGO SHOW

Chicago.—Under a new rule adopted by the management of the International Hay and Grain Show, after an exhibitor has won the highest award obtaining in a crop contest three times, he will then be considered a "super-crop" man and barred from competition for three years before he can again compete in the class in which he won the crown.

This applies to any exhibitor whether he has had consecutive wins or the laurels spread over a number of years.

The new rule will mean that Herman Treble, Wembley wheat king, a four-time champion, will not be able to compete in the winning wheat class again until 1936, and it will also bar Mrs. Mary E. Maycock, of Milford, Ont., who for three years has annexed the blue ribbon for the champion sample of beans with her navy exhibit.

In announcing the adoption of the new rule, M. S. Parkinson, superintendent of the show, stated it is to encourage and give new and green exhibitors a better chance to score in the larger prizes.

The new rule, despite the consistent victories of Dominion exhibitors, is not, it was clearly stated, aimed at Canadian entrants but applies to all, including C. E. Troyer of Lafontaine, Ind., who won the crown for the best corn in the show. It was his third premier honor and he will be barred till 1936.

Saskatchewan Winners

University Captures Honors at Ottawa Winter Fair

Ottawa.—University of Saskatchewan and National Breweries divided honors in the percheron classes at the Ottawa winter fair. Leo Mangus 2nd, owned by the Brewery, was declared grand champion percheron stallion and senior champion. The University's Romulus is reserve grand and reserve senior champion.

Highest honors for percheron mares went to the University of Saskatchewan on Charlotte, who won the grand and senior championships.

Conference of Premiers

Ottawa.—Tuesday, January 17, is tentatively proposed as the date for the Dominion-provincial conference on unemployment and allied problems. Premier R. B. Bennett stated. The premiers of all the provinces are being communicated with on the subject of the date.

NEW FIELD MARSHAL

The Earl of Cavan, who has been appointed Field Marshal, the highest rank in the British Army, succeeding the late Lord Methuen. The Earl of Cavan is 67 years of age and served throughout the South African and the Great Wars. Lord Cavan was also-deputy to Lord Stanley, Governor-General of Canada, from 1891 to 1893.

Speedy Return To Penny Postage Unlikely

British Postmaster-General Declares It Easy For of Taxation

London.—Little hope of a speedy return to the penny post was held out by Sir Kingsley Wood, postmaster-general, when he referred to post-office developments at a luncheon given by the Incorporated Secretaries' association at the Cannon street Station restaurant, E.C.

As postmaster-general, he said, he would naturally like to see a return to the penny post, but he could not but recognize that there was much in the contention that the £6,000,000 which the extra half-penny on the letter produced was probably less burdensome than any other form of taxation of similar yield, while the cost of collection was nil.

The state was certainly entitled to receive from the post office adequate payments in lieu of income tax and for the monopoly which was given to it.

British War Debt

Stated That Britain Will Pay Installment to U.S. on Dec. 15

London.—The Morning Post says it had learned authoritatively that Great Britain has decided to pay its December 15 war debt instalment to United States.

Final details of the arrangement were presented to a cabinet meeting for ratification. The amount involved is \$95,550,000.

Informed quarters expected the document might prove to be the most important since the war era so far as Great Britain is concerned, since it will review the whole range of inter-governmental obligations as well as the immediate debt instalment.

Would Keep Einstein From Entering U.S.

Woman Patriot Corporation Send Request to State Department

Washington.—A demand was served upon the state department that Albert Einstein, of relativity fame, be barred from the United States as an undesirable alien.

The Woman Patriot Corporation, through Mrs. Randolph Frothingham, of Brookline, Mass., the president, sponsored the request, charging that Einstein is "affiliated with more anarchist and communist groups than Joseph Stalin himself."

To Curtail Production

Farm Seedling Strike Proposed By Alberta Farmers

Humay, Alta.—Strong support is being given the call of Humay district farmers for a wheat seedling strike next spring, according to reports reaching leading farmers in the movement.

Letters of support from members of various locals of the United Farmers of Alberta were submitted at a meeting of the Humay local, and one report said 100 locals of the farm organization favored the strike.

Official recognition by farm organizations has not yet been given the strike. The Alberta wheat pool discussed the proposal but declined action and the plan will be debated when the annual convention of the United Farmers of Alberta is held in Calgary in January.

Edmonton Flyers Injured

Ice Forming on Wings of Machine Caused Crash

Edmonton, Alta.—Grant McCoskie, Edmonton pilot, suffered a broken leg and other injuries, while his mechanic, Christopher Green, was hurt less seriously, escaping with a bad shaking up, when their aeroplane crashed a few moments after taking off from the city airport.

Ice forming on the wings of the plane caused the crash. The machine was badly damaged.

GAS EXPLOSION CREATES HAVOC IN MONTREAL

Montreal.—Ten persons trapped in a three-storey dwelling here was rescued, and firemen were satisfied that a disastrous series of explosions in sewers and gas main of the north end of the city had claimed no lives.

The building collapsed when a terrific explosion occurred in the main directly beneath it. Ten persons were trapped but firemen and internes from the city hospitals dived into the wreckage and pulled out the family of Frederick Verrelles and a family named Caron.

They were taken to hospital suffering from cuts, bruises and burns but were not seriously injured.

Altogether some 20 people were injured as the explosions ripped through one street after another, damaging miles of sewers and tearing up miles of street paving in an area 10 blocks long by eight blocks wide.

The district affected is bounded by DeFurmont street, St. Lawrence boulevard, Jean Talon street and St. Hubert street. Damage estimates could not be gauged early, but the disaster meant injury for thousands of unemployed in effecting repairs.

The cause of the disaster was unknown. The Montreal Light, Heat and Power Consolidated issued an official statement advancing the theory that the first explosion was caused by a sewer explosion of gas or other inflammable material and that the blast broke a gas main.

More than 100,000 huddled terror-stricken in their homes for three hours as the explosions roared out one after another, ripped up paving, smashed windows and culminated in the collapse of the three-storey building which immediately caught fire. The building is situated at the corner of DeFurmont and St. Valier streets.

A manhole at the intersection of St. Denis and Belanger streets shot 20 feet into the air. A terrific roar followed. Sheets of flame belched from manholes for three-quarters of a mile and the district was covered with a pall of greasy, black smoke.

That was the beginning of the city's worst sewer explosion disaster. For the next three hours, blast after blast struck more and more fear into the hearts of a sixth of the city's population.

All over Montreal the blasts could be heard. Firemen from 22 stations rushed to the district. Over 200 police were concentrated in the area. Ambulances clanged. So great was the danger of wholesale panic that advice was broadcast warning the people to stay at home and be calm.

Heat in the district was terrific as flames were shooting 20 to 30 feet high from all the manholes. Not one house on Belanger street from St. Hubert to St. Lawrence, 12 city blocks, had a window pane intact. The whole area affected was in total darkness shortly after the first explosion, and all traffic was tied up in hopeless confusion until police could straighten it out.

INFLATION OF CURRENCY IS SOUGHT BY U.F.O.

Toronto.—The United Farmers of Ontario at their annual convention here voted to become affiliated with the Co-operative Commonwealth Federation headed by J. S. Woodsworth, Winnipeg Labor member of parliament.

Miss Agnes MacPhail, Progressive member of parliament, and William Irvine, United Farmers of Alberta member, spoke strongly in favor of the affiliation.

The U.F.O. decided to maintain its own identity, however.

Instant action by the Canadian government for the inflation of currency is sought by the United Farmers of Ontario, who telegraphed Premier Bennett as follows:

"Representative mass meeting of Ontario farmers demand immediate inflation to push down prices of farm products which are insufficient to meet fixed charges, restore purchasing power and maintain decent standards of living. Present desperate conditions make such action imperative."

In addition, the United Farmers will take the lead in circulating throughout the rural sections of the province, petitions which ultimately will be placed before the government to the same end.

Led by Miss Agnes MacPhail, member of parliament for Southeast Grey, the convention threatened to force the currency question thoroughly. Inability of farmers to pay their debts under the present prices was given by numerous speakers for the desirability of inflation.

"I want inflation and the issue of currency against our resources and good, and I don't want it done through the chartered banks of Canada," Miss MacPhail declared. "You wouldn't follow Australia, Argentina and Great Britain. Now you must follow them or you will be starving. Grant them 100 per cent show some united action. Move at once, aggressively into the task of constructing a new social order."

Dominion-Provincial Parley

January 17 Has Been Selected as the Opening Date

Ottawa.—Tuesday, January 17, has been fixed definitely as the date for the opening of the Dominion-Provincial conference on unemployment and allied problems. Official announcement of this effect was made by Prime Minister R. B. Bennett.

Telegrams have been received from each of the premiers of the several provinces; and all provinces, it is stated, will be represented at the opening of the parley.

Curbing unemployment insurance will be one of the major subjects on the agenda.

London Market Has Poultry From Prairies

Consignment of Fresh Killed Fowl Sent From Winnipeg

London.—A fine showing in the famous Smithfield meat market, in the heart of London, of Canadian products attracted the Canadian High Commissioner and Mrs. Howard Ferguson.

It was the first consignment ever sent here of fresh-killed unfrozen turkeys and chickens which had been sent by the poultry pool, of Winnipeg, Man.

The meat will likely obtain about 16 pence a pound, including cost, insurance and freight.

Boy Scout Movement Grows

Ottawa.—An increase in the registered enrolment of Boy Scouts and Scout leaders to over 60,000, and a substantial growth of interest amongst French-Canadian boys, were shown by the reports presented at a meeting of the executive committee of the Canadian General Council of the Boy Scouts' association, presided over by the governor-general, as chief scout for Canada.

Radio Appointments

Ottawa.—E. A. Weir, Montreal, director of radio for the Canadian National Railways, has been named technical manager for the new Canadian radio broadcasting commission, and E. C. Buchanan, president of the parliamentary press gallery and Ottawa correspondent of the Toronto Saturday Night, has been named publicity chief for the commission.

The machinery to fix representation in the House of Commons for the next 10 years has been set in motion and a committee has been formed to define constituency boundaries and distribute representation. Above are five members of the Committee, as follows, left to right: J. R. MacNicol, Hon. Charles Stewart, A. A. Heaps, Hon. J. C. Elliot, and Hon. R. J. Manion.

AN EDITORIAL OPINION

75 YEARS OLD

Here is a quotation from Harper's Weekly, October 10, 1857—just seventy-five years ago. Read it carefully.

"It is a gloomy moment in history. Not for many years—not in the lifetime of most men who read this paper—has there been so much grave and deep apprehension. In our own country there is universal commercial prostration and panic and thousands of our poorest fellow citizens are turned out against the approaching winter without employment."

"In France the political caldron seethes and bubbles with uncertainty. Russia hangs as usual like a dark and silent cloud upon the horizon of Europe, while all the energies, resources and influences of the British Empire are sorely tried, and are yet to be tried more sorely, in coping with the vast and deadly Indian insurrection, and with disturbed relations in China."

"Of our own troubles no man can see the end. If we are only to lose money and by painful poverty to be taught wisdom, no man need seriously despair. Yet, the very haste to be rich, which is the occasion of this widespread calamity, has also tended to destroy the moral forces with which we to resist and subdue the calamity."—Ex.

ALBERTA'S WINNINGS

AT CHICAGO

Depressed economic conditions appear only to act as a stimulus to Alberta live stock and grain exhibitors in their efforts to beat their previous records in the international exhibitions. Once more the world wheat championship has come to Alberta from Chicago, the victory going to Herman Trelle, of Wem. 1st, in the Peace River district, for the fourth time, as a result of the judging in the Chicago international show the past week. This record has never been equalled in the international show. Trelle won this year with a sample of Reward wheat. Three more championships came to Alberta, that in oats going to Fred Ham, of Grande Prairie district, and that in alfalfa going to Fred Oman, of Scandia, south-east of Calgary.

In spring wheat, seven out of the first ten prizes went to Alberta exhibitors at Chicago, second prize going to F. Wilford, of Staveland. In all some 20 prizes in wheat came to this province.

Alberta exhibitors got seven prizes in the barley classes, and seven in the field pea classes, three in navy bean and one in rye, four in timothy, four in flax and two in alfalfa.

A woman, said to belong to western Canada, was lost overboard from the liner Lady Drake on the Atlantic on November the 18th.

The engagement has been announced in England of Lieutenant P. F. Powlett, R.N., only son of Vice-Admiral and Mrs. F. A. Powlett, of Brooklyn, Timburlay, Romey, Hants, to Elizabeth, only daughter of the late Edward Elwell, of Cranbrook, B. C., and Mrs. Elwell, of Corby, Kettering, Northants.

Dole relief orders are being handed out in Newfoundland. Here is a month's ration for a family of three: 75 pounds flour, 11½ pounds fatback pork, 3 pounds split peas, six pounds beans, six pounds corn meal, 2½ pounds cocoa. The ration is doubled for a family of six. Note—absolutely no luxuries are given.

EMPLOYED MARCHES

Definite action to prevent the rumored concentration of unemployed in the province in a march upon the capital at Edmonton is announced in a statement issued this week by Premier Brownlee. The statement points out that communistic literature has recently been circulated reiterating demands already made on governments, and the government expresses its opinion that the object is more the furtherance of communistic propaganda than the immediate solution of the unemployed problem. In view of this, the government has issued the following statement:

"The government has not refused to meet delegations from the unemployed in Edmonton and is equally ready to meet any delegation in Calgary or other points in the province, through ministers or properly accredited representatives of the government. This being the case, there is no need whatever for any concentration upon Edmonton, and instructions have been issued by the government to the Royal Canadian Mounted Police to take all adequate measures to stop any such attempt."

"The government takes this method of notifying all interested organizations that no such concentration will be permitted and that should any unemployed from other parts of the province succeed in reaching Edmonton, under no circumstances will relief be given here nor will any provision be made by the government for the return to the place from which they have come."

"All municipalities are being asked to co-operate with the government to this end, so that anyone applying for assistance for any delegates who may come from other parts of the province will be treated in a similar manner."

Ralph Fazio was down from Wayne the early part of the week.

Kenneth McEllan, well known traveller for Western Grocers, Limited, on this territory, is reported quite ill in the Roedel hospital.

It is likely that, because Christmas Day and New Year's Day fall on Sundays this year, the Mondays following will be observed as holidays.

There was no truth to the rumor that Dimming was to resign the post of liquor commissioner to join the Alberta jobless.

Five men were killed by an explosion in the Maple Leaf colliery at River Horbert, Nova Scotia, on December the 1st.

Seven bodies have been picked up along the west coast of Newfoundland, part of the crew of the missing New York tug Sandbeach. One of the seven was identified as Andrew Berg, of Scotsguard, Saskatchewan.

The rate of charge for grain storage, elevation and other services at country and terminal elevators, has been fixed by the government at one forty-fifth of a cent per bushel per day.

D. W. Smith, a Vancouver accountant, who pleaded guilty to the theft of \$3,000 from his employers, the Canmore Coal Company, was sentenced to two years' imprisonment. He was arrested at Quebec three weeks ago, on board a liner bound for England.

Fred Palmer informs us that on Sunday evening, Nov. 7th, at his Bohemian Nursing Home, a daughter, (Jemima Keturah) was born to Mr. and Mrs. Johnnie Schram, and that the father, mother and baby are doing as well as can be expected under the circumstances. — Claresholm Local Press.

SPLENDID GATHERING OF
YOUNG PEOPLE IN PASS

An event not soon to be forgotten was the United Church of Canada Young People's Rally which took place in the town of Coleman on Monday, December 5th, at St. Paul's United Church. 105 young people were present, representing the towns of the Crows' Nest Pass and Pincher Creek.

The worship service was conducted by the Blairmore Y.P.S. with Mrs. Charles Howe leading. The scripture reading by Mr. William Duttill, Jr., was followed by a vocal solo, "Jesus, Lover of my Soul," effectively rendered by Miss Lena Fraser. Mr. Floyd Hottle led in prayer. Following the greetings from the Alberta Conference and the Edmonton Young People's Board presented by Rev. A. E. Larkie, Mr. Albert Christie sang a sacred solo.

There followed an inspirational address by Rev. R. W. Hibbert, M.A., secretary of the Religious Education Council of Alberta, after which officers were elected for the Pass District Young People's Union. Those elected were: Mr. Floyd Hottle, Blairmore, chairman; Miss Margaret Cameron, Pincher Creek, vice-chairman; Mr. Albert Christie, Bellevue, 2nd vice-chairman; Miss Margaret McDonald, Coleman, secretary-treasurer.

"Escapades and Crusades" was the subject of Mr. Hibbert's address to the Young People. He pointed out that an escapade was really an outlet or escape from certain conditions which had become more or less monotonous, discouraging or seemingly hopeless. From the harmless pranks through which the school-boy finds outlet for pent-up energy, to the escapade of seeking outlet from an undesirable social and economic condition through violent means, he traced the various channels through which human beings sought to evade some conditions in the present. Sometimes an escapade meant a turning aside from the realities of life. Dis-

metrically opposed to the escapade was "The Crusade" which took us into an entirely different atmosphere. While the crusades of olden times called forth heroism and self-sacrifice they were not well directed as to purpose which was to rescue from the infidel an empty tomb. Life is a crusade in behalf of a cause. Those who embarked upon a crusade faced life with definite convictions. A crusade, however, involved joint action all along the line. This world is the world of the young people. Handicapped to us in its present chaotic state it is for us to take it as it is and mould it into something better. We must make progress in a definite direction—upward. To the youth of today must fall the torch of that high idealism which characterized many of the men who failed to return from the war. The Golden Years are before us, not behind us. In closing Mr. Hibbert said: "Be as radical as you please, so long as your plan and programme fits into the plan of Jesus for the Kingdom of God." He did not fear for the social order of the future if the Young People chartered their course under the leadership of Jesus and His way of life.

After a much appreciated lunch

Sir James Chrichton-Browne,
pre-eminent in the British
Medical World declares:—

"Beer---our national beverage---is the most truly nourishing of alcoholic drinks, and its use in moderation is well calculated to decrease susceptibility to fatigue and the headaches and despondency of those who are over-wrought and worried. Beer is not only a readily assimilated food, but it promotes the assimilation of other foods."
